

Adriana María Palau Ángel

Acting Vice President of Sustainability and Strategy

A Civil Engineer from the School of Engineering of Antioquia, she has a Master's degree in Administration from Universidad EAFIT in Medellín. She is known for her integrity, values, human quality, and as a generalist professional with a solid academic background, who is reliable, proactive, responsible, efficient and achievement-oriented.

Throughout her career, she has held positions with high responsibility in EPM (in its dual role: parent company of Grupo Empresarial EPM, which is present in Colombia, Mexico, Guatemala, Salvador, Panama and Chile in the energy, water and sanitation sectors, and as a leading provider of residential and complementary public utilities in Colombia), in the Mayor's Office of Medellín and in METROPLÚS S.A. (the managing entity of the medium capacity bus rapid transit (BRT) integrated mass public transportation system for the Aburrá Valley, in its infrastructure construction and system operation phases). She has demonstrated a dedication to service and commitment to the territories and their stakeholders by neatly and efficiently performing the tasks entrusted to her as a public servant and board member of companies associated with the employing entity.
