

EPM in relation to the pronouncement made by the General Attorney of the Nation today, through the media, on the results of the first line of investigation addressed by that entity, it is allowed to inform the public that:

EPM has acted transparently and within the framework of what the law allows. The company reiterates its permanent disposition to collaborate with the Prosecutor's Office in its investigative process, and with all the control entities in the requirements that are faced with the Hidroituango project, as it has done so far.
