Medellin, May 7, 2019

EPM confirms, as it has been disclosed by some media, that Integral S.A. and the Ituango Generation Consortium, responsible for the designs of the Hidroituango project, presented to EPM the study carried out by them on the root cause of the contingency that was presented in the project on April 28, 2018.

The aforementioned document is currently under study, which is why the company has not yet made a statement on the matter.
