

## Relevant information

Medellin, October 17, 2019

**In relation to the information published in Revista Semana and other media, concerning a claim filed by Sociedad Hidroituango, EMP would like to state that:**

To date, it has not been notified of any claim and it reaffirms its willingness to engage in permanent and constructive dialogue with the company HYDROITUANGO S.A. E.S.P. in order to, within the parameters set forth in the BOOMT agreement, comply with the legal and procedural aspects established therein. In the meantime, it will provide the required documentation and evidence to set the scope of its responsibilities and to prove the proper execution of the aforementioned agreement.

As a result, EPM E.S.P. states that it continues to work on the recovery of the Ituango Hydroelectric Plant Project in order to launch it in the second half of 2021.
