

Relevant information

Medellin, November 25 2019

Within the connection of the Municipal Administration, EPM, as a decentralized entity of the Municipality of Medellín, began on Monday November 25 the connection as an essential space to establish trust relationships based on values that characterize the EPM Group: transparency, warmth and responsibility.

This Monday is the first day of the agenda, which will last up to next Friday, November 29. This makes it possible to provide relevant information to maintain business management consistent with the Strategic direction of the Group.

The connection is assisted by the commissions designated by the Municipal Administration for the four-year periods of 2016-2019 and 2020-2023, the latter led by the elected Mayor, Daniel Quintero Calle. In addition, it has the presence of all the EPM Governance Bodies, in line with the importance that this space represents as regards the articulation of the management in order to maintain the long-term vision of the Company and the Group.

To find out more information about the EPM, we invite you to consult the website:
