### Relevant Information

EPM clarifies information published in the media regarding the acquisition of 40.9% of the company ERCO S.A.S. In the sense that it was not carried out by EPM but by the Private Capital Fund "Emprendimiento e Innovación SP" (<http://www.fcp-innovacion.com/>), a collective investment fund set up under the legal framework in which EPM is an investor, in order to leverage business developments in innovation, science and technology. Consequently, ERCO Energía S.A.S., is not part of the EPM Business Group.
