

# Press Release

Information Preview No. 86

## **EPM informs the public:**

1. That during this week a group of officials from the attorney general's office will continue his investigative work in Medellin in relation to the contingency of the Ituango hydroelectric project.
2. EPM is gathering all the information requested by the control entity and arranged everything necessary to facilitate its work in the EPM administrative headquarters in the capital Antioquia.
3. As it has done in previous visits, EPM reiterates its total openness and willingness to collaborate in all that is relevant, so that this organization can fully comply with the task investigative that advances.
