

EPM hereby informs the public:

Aguas Nacionales, a subsidiary of Grupo EPM, was notified on Tuesday, June 18, by the Dispute Resolution Commission of the construction agreement of the Aguas Claras wastewater treatment plant of the decision made in favor of the Aguas de Aburra HHA Hispanic-Korean consortium, wherein a series of claims presented by the contractor is received.

Given the complexity of the document, the Organization and its legal team are analyzing the ruling of the Commission.

Aguas Claras, the country's largest and most modern wastewater treatment plant, was built by EPM through their subsidiary, Aguas Nacionales.
