

## Relevant information

Medellin, November 13, 2019

Concerning the Relevant Information published by EPM on October 17 of the current year, on the demand for executive payment presented by the company HYDROITUANGO S.A. E.S.P., EPM emphasizes the following:

The Administrative Court of Antioquia by means of the ruling of November 12, 2019, has refused the payment order amounting to \$117.825.423.750,00 which had been requested by the company HYDROITUANGO S.A. E.S.P. In the decision, it was considered that the requested payment did not correspond to a clear, express and enforceable obligation. Therefore, the submitted documents do not make up an executive instrument.

It was also considered that in order to make the guarantee effective, the obligation must be enforceable as per the terms of the BOOMT agreement. Therefore, it is required to present the declaration of breach of contract issued by the Administrative Court agreed by the parties in order to enforce criminal penalty clauses. In line with the evidence provided, the contractual breach attributed to EMPRESAS PÚBLICAS DE MEDELLÍN E.S.P. has not been proven.
