

## Press Release

### **In relation to the group action filed in a court of the Municipality of Bello, EPM informs public opinion:**

1. To date, the Company has not been officially notified of this group action. However, on the night of Tuesday, August 3, it was able to see an informal copy of the order that decrees the embargo for the sum of 30 billion pesos to the bank accounts of several public entities and private companies that are sued in this action. It is important to indicate that, in this order, the court did not order the seizure of EPM's bank accounts.
2. For some reason, unknown to the Organization, the same court sent letters to financial entities where EPM has bank accounts ordering their seizure for a sum of "30 billion pesos" and, despite the fact that the court, at the request of EPM, already rectified that the amount actually seized was 30 thousand million pesos and not 30 billion pesos, it has not explained why the order directed to the banks persists to carry out embargoes that have not been decreed.
3. These and other inconsistencies of the court motivated EPM to file on Tuesday, August 3, an appeal for reconsideration and a protection action against the decisions of the court.
4. For now, EPM awaits the outcome of the legal actions filed.
