**SOMOS**  
Grupo EPM

## EPM is allowed to inform the public

After resolving the request for clarification presented by EPM, the judgment issued on January 26, 2023 by the Council of State, according to which EPM cannot continue to develop the SOMOS financing program, because it is not contemplated in its corporate purpose, became final.

Since Friday, May 26, EPM suspended the operations of the program and began the process of communicating to customers and other interested audiences about the measures it is adopting in compliance with the court ruling.

It is important to indicate that this decision only has scope in front of the clients of the SOMOS program in Antioquia. For the other subsidiaries of the EPM Group where the program exists, the operation continues normally.

### **Consequently, from 2 to 6 May:**

1. Customers of the SOMOS program in Antioquia will not be able to use the different lines of credit to make purchases.
2. The links of new clients to the SOMOS program in Antioquia are interrupted.
3. Outstanding fees will continue to be billed to SOMOS customers through EPM's utility account.
4. Claims or doubts about billing will continue to be addressed through the usual channels: SOMOS Line (604) 44 44 800, EPM Customer Service Offices in Antioquia and [www.epm.com.co](http://www.epm.com.co).
