

EPM's Board of Directors authorized the Administration to analyze and evaluate eventual disposals in controlled and non-controlled companies, in Colombia and abroad, up to a value of COP 3 billion.

With this authorization, the Board of Directors seeks to have all the resource funding alternatives at their disposal that allow them to take timely decisions and continue the investment, operation and debt service plans, keeping in mind the effects that the situation presented at the Ituango Hydroelectric Project will have.

It is important to note that EPM at Group level has as of to date COP 1.4 billion in cash and credit lines approved and undisbursed for USD 1.300 million.

Financial results showed revenues for COP 5.1 billion as of April 30th, EBITDA for COP 1.7 billion, with 10% growth compared to previous year and, finally, net income for COP 950.000 million, with 21% growth with respect to same period from previous year.

As of December 2017, investments in affiliates and subsidiaries amounted COP 9.3 billion.
