

Relevant Information

With respect to information released by some media and social networks about the possible disposal of the shareholding held by Empresas Públicas de Medellín E.S.P. in other companies, EPM reiterates, as reported through the relevant information mechanism of the Financial Superintendence of Colombia on July 31 of 2018, that the Board of Directors authorized the Administration to start the necessary procedures, including the procedure with the Medellín City Council, to dispose of shares that it owns directly in Interconexión Eléctrica S.A. (10.17%) and some Non-Material Minor Shareholding, in Colombia.

The Board of Directors also approved the disposal of the indirect shareholdings in Chilean companies Aguas de Antofagasta S.A. (100%) through its subsidiaries EPM Chile S.A. e Inversiones y Asesorías South Water Services SpA., and in Parque Eólico Los Cururos Ltda (100%), shareholding held through its subsidiaries, EPM Chile S.A. and EPM Inversiones S.A.

Consequently, it is reiterated that these are the only divestments authorized by the Board of Directors.
